

Duo Pleated Blind

Product Information

Verosol's **Duo Pleated Blind** combines the soft appeal of a curtain with the versatility and simplicity of a blind. The ideal solution for heat and light control, and the blind almost disappears when lowered or raised. You have the option to raise the blind in the conventional way or drop towards the window sill.

The Duo Pleated Blind is an ideal solution where privacy and/or ventilation is required. Simple and elegant, with a small stack height and short projection, giving you an uninterrupted view from your home or office window. Useful for sash windows or when privacy is required down low but sunlight is required.

Pleated Blinds with Guide Wires are a great idea when installing blinds on internal doors, as well as an ideal solution for boats and motor homes
